PRESIDENT MESSAGE

Laurie Staiger, IOM
Chamber President

Running a business means juggling countless priorities every day and finding time to explore new cost-saving opportunities often falls to the bottom of the list. That's where your Chamber can help by connecting you with trusted programs and resources that support your bottom line.

One hidden jewel is Washington County's BizRecycling program, which provides free, expert assistance to help businesses reduce waste, improve recycling efforts, and identify opportunities to lower disposal costs. Whether you're just getting started or looking to enhance your current recycling program, BizRecycling offers practical recommendations tailored to your business's unique needs. Some current ways the grants are being used are:

- Covering expenses for replacing single-use products such as Styrofoam cups, plastic water bottles and cans to more reusable options
- Bin-only grants
- Tire Recycling and so much more

To learn more, watch this video from Brian King, Owner of Rock U Music school who received a significant grant to make major improvements. [Click here](#)

The most pivotal decisions don't come from spreadsheets. They come from identity, imagination, and the courage to choose a different future. This conversation is designed for high-capacity leaders of organizations who want to figure out what's next. It unpacks the psychology of bold decision-making, reveals the invisible fences that limit vision, and helps you clarify the path ahead.

The session includes working with a few of Novus Global's favorite tools used with billionaire CEOs, Olympic athletes, and leaders across every industry to put together a clear vision for the next 6-12 months of your personal and professional life.
